

AKO and MOK are a collection of armchairs equipped with an electrical socket that permits you to recharge smartphones and tablets with USB port, and also any other devices thanks to the CE ECM certified schuko socket. These armchairs perfectly fit in waiting rooms, meeting areas, public spaces like libraries, museums or cafès 2.0. Are proposed in different materials fabric and artificial wool for a casual design or in leather and eco-leather for a more classic and elegant style.

MOK is a square line armchair with a big plain armrest like a little table thinked to hold laptops or offer a place to write. AKO is a stilish and modern armchair with an original metal support shape which follows the oblique line of the structure.
