DANISH DESIGN

AN INNOVATIVE BRAND WITH A
CURIOUS DESIGN APPROACH

FALL 2023

OUR DESIGN PHILOSOPHY

We believe that a well-designed office environment can inspire and improve the work experience. Each of our collections are carefully designed and crafted with functionality, high-quality materials and responsible production in mind.

[AP-THO]

Our name is Portuguese and means change and adaptation. The name capsules our dedication to help you creating an environment that is resilient to change and masters the art of adaptation. A vision we pursue through our four interior collections.

CLUSTER COLLECTION

AN ADAPTABLE FRAMEWORK

The mission of the CLUSTER Collection is making it possible to create an adaptable and flexible workstation. The collection prioritizes modularity to the fullest, allowing you to place the tables in various configurations matching your team's working approach.

CREATING AREAS FOR COLLABORATION

The cluster setup is ideal for “hot desking” and for creating areas for collaboration, where each employee still can maintain their own workspace. The tables can either be clustered together or arranged in a long row making it ideal for the future workplace.

EXTEND CEILING MOUNTED

The ceiling mounted model is the optimal solution to both provide privacy without isolation and encourage idea sharing. It is also ideal to create more inviting spaces in areas such as the reception, or in the cafeteria.

EXTEND COLLECTION

A SCALABLE SHELVING SYSTEM

We have designed a collection that makes it feasible for you to utilise a rooms full potential – without compromising on either aesthetics or functionality. Actually, it is the essence of our scalable shelving system EXTEND Collection. The shelving system offers unlimited possibilities to create zones in any room for any profession.

EXTEND WALL MOUNTED

The wall mounted model brings both character and functionality into the room without taking up too much space. It is a great alternative to the more heavy shelving systems that is often used to zone open office spaces.

EXTEND FREE STANDING

The free standing model is an adaptable solution to zone any larger room. This model can be assembled with wheels making it even more mobile. By adding plants a lively atmosphere is brought into the room.

CLAMP COLLECTION

FLEXIBLE AND MULTIFUNCTIONAL

The CLAMP Collection itself is built around our specially designed multi-clamp that allows you to change, adapt, and personalise your individual workplace. It consists of 12 multifunctional and characterful designs giving you infinite opportunities. Designed by PJ Production together with the renowned design company Hans Thyge & Co.

ROUND TABLE

MOUNT WITHOUT TOOLS

The design has been made as flexible and multifunctional as possible. The goal is to make a long-lasting product that can be included in interior designs again and again. All without compromising the customer's experience.

FLOWERBOX

FELT COLLECTION

We strive to help solve the pollution problem in the world, therefore we turn waste into valuable products. Our vision for the future is that we will have an upcycled alternative to all our product categories. The felt we use is therefore made of 70% upcycled plastic.

70% UPCYCLED PLASTIC

The felt material is of good quality, which secures high performance and a green profile. The felt material is both flexible and stiff enough in itself, that it does not need fittings to hold it in place. Also, It can easily be fitted in EXTEND shelving system without any tools needed.

OFFICEBOX

FELT CABLETRAY

AN UPCYCLED ALTERNATIVE

Our first product in the collection was the felt drawer and due to the success of this drawer, we have expanded the range of felt products for the whole office. Now felt is at material we use across all our collections.

ADAPT COLLECTION

A MODULAR AND INDIVIDUAL SETUP

The essence of our ADAPT Collection is one element having several functionalities: The board that is both a cable tray, and a acoustically treated wall (Class B). From there you can personalise your table setup by mixing and matching your preferred components. ADAPT is a complete collection that capsules functionality based on any need you might have while working.

This collection can be seamlessly integrated with our other collections.

THE ADAPT BOARD consists of a board, sized 1000, 1300 mm. and 1500 mm., cable tray and sound-absorbing rear wall (class b) in one. In addition, you can mix and match removable modules as needed. The board is made of metal and is magnetic.
